Description

The machine is designed for forming the leads of axial components such as resistors and diodes into a "K" or "U" shape, either from bulk or tape-packaged components.

Equipment configuration and parameters

Product Name: Axial lead Forming Machine

Model: ETE-0025

Type: Forming Machine, Lead Cutting Machine

Tool Material: Japanese SKD11

Electrical Components: OMRON/Delixi

Power Supply: 220VAC/50HZ

Sheet Metal Process: High-temperature powder coating/su

anodizing/hard chrome plating

Dimensions: L550xW450xH420mm

Weight: 110Kg

Processing Efficiency: 6600pcs/H

Equipment Application: K-shape/U-shape forming and lead

bulk and taped resistors/diodes and other axial component

Power Supply Voltage: 220V

Feeding Mode: Fully automatic

Processing Capacity: 1000
